7.1.9 Sensitization of students and employees of the Institution to the constitutional obligations: values, rights, duties and responsibilities of citizens

The Balaji Law College stands as a beacon of educational excellence, not only imparting knowledge but also instilling values that nurture responsible citizenship, as enshrined in the Constitution of India. Through a range of initiatives, it equips students with the principles and ethics required to be active and conscientious members of society.

One of the significant ways the college achieves this is through professional ethics workshops. These workshops expose students to real-world scenarios and ethical dilemmas relevant to their chosen fields. By engaging in discussions and critical thinking exercises, students learn how to navigate complex situations with integrity and professionalism. This practice aligns with the constitutional values of upholding justice, liberty, and equality, ensuring that students emerge not just as competent professionals but as responsible citizens who contribute positively to the nation's progress.

In addition to workshops, the college conducts constitutional seminars to deepen students' understanding of the fundamental principles that underpin our democracy. Through these seminars, students delve into the various provisions of the Constitution, exploring topics such as fundamental rights, duties, and the balance of power. This exposure enables students to appreciate the significance of individual rights within the context of collective responsibility, fostering a sense of duty towards society. The seminars underscore the college's commitment to nurturing citizens who are not only well-versed in the law of the land but also recognize their roles in upholding the constitutional values of justice, equality, and fraternity.

The College has established various committees such as the Caste-based Discrimination Committee, The Minority Committee, The OBC Welfare Committee, the Anti-ragging committee, The Students' Grievance Redressal Committee, The Internal Complaint Committee that pro-actively work to prevent any kind of non – constitutional acts. Each class In-charge organizes various debates and discussion sessions in class at least once in a month to encourage critical thinking on these issues to widen the horizon of the students's perspectives. These activities help the students to be active inquirers. The college follows a student centric approach and the teachers provide academic, career and personal counseling to help the students maintain the equilibrium of their lives. Albeit, each Class In-Charge acts as a personal mentor to the student of the respective class, the student is free to approach any other faculty to address their concerns. The college

facilitates the students with a safe environment, a counselling centre and common rooms. The college at present has separate common rooms only for boys and girls as we do not have a student who does not identify to another gender other than these two genders.

By undertaking these activities, the Balaji Law College goes beyond conventional education, emphasizing the importance of ethical behavior and civic engagement. The institution's efforts to inculcate values for responsible citizenship align seamlessly with the ideals enshrined in the Constitution of India. In doing so, the college not only imparts education but also shapes individuals who embody the principles upon which our nation was founded.
